

# Were you, or your child, diagnosed as a teenager?

Schizophrenia  
& Psychosis  
Action Alliance

The Schizophrenia and Psychosis Action Alliance is supporting efforts for early detection and treatment, to improve outcomes for those with lived experience of schizophrenia.

## We are seeking:

- Individuals up to 22-years-old, who were diagnosed with schizophrenia or a related condition between ages 13-17.
- Parents of those diagnosed with schizophrenia or a related condition between ages 13-17.

We want to listen to your thoughts on medication studies, and why people may or may not want to take part in them.

The interviews will last for 60 minutes and will be on Zoom.

Your confidentiality is our priority.

You will receive up to a \$62.50 gift card, as compensation for your time, if you complete the interview.

**WCG IRB #38358363.2**

IRB Approved at the Study Level
