Electronic Resources by Program

The program home pages provide general information about each program and are accessible to the general public.

NAMInet pages are designed specifically for the program leaders (teachers/mentors, facilitators, presenters, trainers and program directors) and are populated with a wealth of information, tools and other resources that are necessary to provide the program in local communities. Program leaders are given access to NAMInet by their NAMI State Organization.

Program	Home Page	NAMInet
