Field Capacity Building Team - How We Work

Regional Model

Created with mapchart.net

The Regional Model – How it Works

- ✓ The Regional Points of Contact work with the NAMI State Organizations (NSOs) in their regions to help build and strengthen organizational capacity through technical assistance, tools, resources, and referrals.
- ✓ This includes building the NSOs' capacity to provide ongoing support to the affiliates in their states. The Field Capacity Building team also has dedicated staff working on a strategy and handbook for affiliate development.
- ✓ By building and strengthening the capacity of the NSOs, we aim to build and strengthen the capacity of the affiliates.

✓ Affiliates should reach out to their NSOs for day-to-day support, technical assistance, and state-specific events, activities, grants, etc.

✓ Affiliates may reach out to the Regional Points of Contact with questions related to NAMI National events, activities, grants, and campaigns.
